**W**ITH SUMMER ABOUT TO BEGIN, and all the family getting together to visit, the Family Library is a perfect space to organize the kids' activities and projects. Not a huge style statement or designed to impress, rather making people comfortable in your home is the real art.

The cabinetry is hand crafted and finished with old world artisan techniques. A home office computer station and round activity table make a comfortable setting to research and manage one's projects.

The floor is a testament to our hand crafted wood working capabilities. An

inlay design collaborates with the fine cabinetry in the room.

The warm colors bring a cozy feeling where you can find a place to curl up, relax and read your favorite novel or dare to play the Wii with the kids.
